

# Climate summit Glasgow: Look to Norway?

« I looked my two grandchildren straight in the eye and promised to do everything in my power to deliver on climate. »

**Jonas Gahr Støre**, Norway's new Prime Minister, on election night 2021

## Norway's position on key climate issues:

Stopping the search for oil and gas in the Arctic	<b>NO INTENTION</b>
Reducing Norway's oil and gas production	<b>NO PLAN</b>
Meeting its goal to cut emissions in half by 2030	<b>UNLIKELY</b>
Reducing loss of ecosystems and natural carbon sinks	<b>INSUFFICIENT</b>
Climate financing to developing countries	<b>INSUFFICIENT</b>
